

## MechoSystems hailed for product excellence.

### ZipGlide® makes five

MechoSystems was honored with a Nightingale Gold Award for its ZipGlide System at Healthcare Design Conference 2013.

Named after health-care reformer Florence Nightingale, the Nightingale Award recognizes the best in health-care product design.

ZipGlide is a specialized side-channel system for solar-shading and room-darkening solutions. More information will be available in the next Price List.

The award is MechoSystems' fifth Nightingale.

### MagnaShade® wins big

Our super-wide, low-profile shade system has won again.

**MagnaShade** received top honors in the Record Products 2013 Furnishings category.

The competition, hosted by *Architectural Record* magazine, aims to determine the best contemporary architectural products. It is judged by a group of six architects from leading New York firms.

Coverage will appear in the December issue of *Architectural Record*.
